FRIDAY AUGUST 24th 1934

NUMBER 24

Funeral Services of Mrs. Eliza Witbeck

The funeral services over the remains of Mrs. Eliza Witbeck whose death was reported in last week's paper, were held in the Stake House Sunday, August 19th, at 2 p.m. with Bishop H. F. Allen in charge, and the First Ward Choir, under the direction of W. W. McMullin, furnishing the music.

After the opening song, "Sometime We'll Understand," the invocation was offered by Pres. O. H. Snow, and the second song was "I Know That My Redeemer Lives," with Ira McBride singing the solo.

The speakers were Mrs. Emil Weed, C. E. Alfred of the First Ward Bishopric, Bishop James H. Walker of the Second Ward, and Pres. H. S. Allen all of whom extolled the active, busy and lovely life of the deceased, and praised her for the work she had done in the organizations of the Church, besides raising a large and respected family. They encouraged the children to remember the example of their mother and live the kind of life she would have them live.

Special musical numbers were rendered by Jos. McLean and Thos. K. Roberts a son-in-law of the deceased.

The closing song was "Resting Now from Care and Sorrow," and benediction was by Elder C. W. Selman.

A large cortege followed the remains to the local cemetery where interment was made with Christensen Bros. in charge.

The service was largely attended by sorrowing relatives and friends, and seldom has there been such a profusion of flowers as was manifest at this funeral, the casket, and casket back of it being literally packed with beautiful blooms.

Mr. and Mrs. A. H. Zabriskie and family returned Sunday from a holiday with friends and relatives in Utah. Mrs. Zabriskie and the children were away about five weeks, and Arnold spent his two weeks' vacation at the old home town.

Mr. and Mrs. John H. and Mrs. Don. H. Wall returned over the week-end from a motor trip which took them through Washington and Oregon and down the Pacific Coast in California. A very pleasant time is reported, but the travelers are glad to be home again, stating that conditions here are as encouraging as any place they visited.

The "ole swimmin' hole" has been very popular lately. Filling the old pool for a winter's reserve for fires, the pool was a swarm with swimmers, young and old, and co-operating with the Council, local enthusiasts engineered a drain from the pool back into the ditch lower down, and now a stream of fresh water is flowing in and out of the pool continually.

DAINTY DISH SET BEFORE A KING

The following is an excerpt from an Edinburgh paper at the time of a visit to Scotland by King George and Queen Mary. "An urgent message was received by an Edinburgh firm from the other side of the Atlantic that a packet of Kellogg Corn Flakes, sent to the Palace of Holyroodhouse, had to reach the Palace before 7 o'clock the following morning.

"At midnight, a wholesale house had to be opened up and the packet was dispatched to the palace by taxi."

"Holyroodhouse" is the official residence of the King and Queen while in Scotland.

News Notes

A large number of Magrath people were here Tuesday night to the Conference meeting.

Thursday night was chilly, but no frost was reported, although there was a very heavy dew.

First frost of the year was reported at Edmonton Wednesday night, when the thermometer dipped to 32 above. No damage was reported.

Field work continued Friday afternoon, after being held up Thursday and Friday morning because of the rain Wednesday night.

Crops in the Taber-Barnwell area have yielded good returns, wheat on irrigated land making 46 bushels to the acre, and oats 76.

Mr. and Mrs. A. W. Jones and family are home again, and Alvin says this is for keeps. He states that he has been chasing the rainbow long enough.

Lawrence Peterson, Salt Lake City, and formerly of Taber, and M.L.A. for a number of years was visiting in the district on Saturday.

Priesthood meeting will be held as usual on Sunday, and all auxiliary boards will be expected to take up their usual work. Those responsible will please take notice of this fact.

Quite a number of marriages from Calgary and Lethbridge have been given employment in the Government road camps during the past week and from the number of applications are glad to get to work again.

The Stake House was well filled Thursday evening for the concluding session of the Stake Conference when the program of the coming year's Mutual activities was introduced, and the listeners given a taste of what to expect during the winter's work. The meeting was rather lengthy, but interesting withal.

Orlando "Slim" Rich, known to many local people as having been in a brawl in Conits Saturday night, and had to have several stitches taken in his arm and shoulder. His assailant Paul Lazelo is in Lethbridge awaiting trial. Slim's wounds are not serious if complications do not set in.

The kids are watching the days now with a heavy feeling in their hearts. Every sunrise means a day nearer the commencement of school, which to the children is one of the tragedies of life. Some day, however, they will appreciate the opportunity, it meant for them. In many problems of life we are just like the kids.

At a special meeting in Lethbridge on Sunday, with Apostle David O. McKay of the General Authorities in attendance, Geo. W. Green and P. D. Clarke were released as Counsellors to President A. E. Palmer in the Stake Presidency, and H. Ostlund and Bishop O. W. Urzembach were sustained as First and Second respectively. B. C. Poulsen was made Bishop and H. E. Wright first Counselor and the second Counselor has not been chosen yet. P. D. Clarke moving to Utah and Geo. W. Green asking to be released on account of his health, necessitated the change.

Elder David O. McKay Speaks at Conference

The first meeting of the Taylor Stake Quarterly Conference was held Tuesday evening, with Pres. H. S. Allen conducting, and Elder David O. McKay of the Quorum of the Twelve presiding.

The Board Members of the Relief Society and the M.L.A. Boards were introduced, and each spoke briefly, as follows: Mrs. Knight of the Relief Society Board; Sisters Jensen and Rowland of the Young Women's and Elder Axel Madsen and W. O. Robinson of the Young Men's Board, who all expressed their pleasure in being permitted to visit with the church members in the Canadian Stakes.

Elder McKay, who because of other business was unable to remain for the remainder of the Conference, was the principal speaker at the meeting, and delivered a forceful sermon on the "Road of Life," pointing out that we should do right for the sake of right, and not because we thought we were pleasing anyone. In leading up to his subject he mentioned a visit to the mountains in Waterton Park and stated that the various strata of the earth's crust was very defined in the mountains there, and so it was with life. Our lives were the products of our thoughts, and that generally speaking, humanity was divided into four well defined strata. At the bottom, the sensual, despoiler and those who loved wickedness. Next, those who were selfish, grasping, and who indulged in the things that satisfy the passions. Then the great realm of materiality, in which we all were placed to live our mortal life. But above this another realm, the spiritual where we should all endeavor to ascend. Even while surrounded by, and a part of the material we should still be seeking after the finer things of life in the spiritual. And by doing this, we become better, more refined, and nearer the stature of the perfect man, which is the aim of all. Experiences from lives of people the speaker had known, were drawn upon to impress the truth of his statements, and he made a feeling appeal to the youth to think right thoughts in their leisure, and to store their minds with knowledge that would lead upward, instead of down, and down and down which is always the easiest path to follow.

W. C. Stone led the singing with Mrs. O. H. Snow at the Organ and C. E. Tollestrup at the piano for this meeting, which was very well attended considering the very busy time of year.

Wednesday afternoon was occupied with Convention work of the M.L.A. and the Relief Societies of the Stake.

PROVIDE RELIEF FOR DROUTH-STRIKEN AREAS DOMINION MAY CREATE FEDERAL DISTRICT OF DRIED-OUT LANDS

Agreement Reached Between Federal and Provincial Gov'ts and Railways to Move Settlers and Livestock from Alberta, Saskatchewan and South-west Manitoba Drought Areas to Farms in North—D.OUTH AFFECTS 45,000 PERSONS AND 500,000 CATTLE.

Relief of the situation in the drought-stricken areas of Southern Saskatchewan, Alberta and Southwest Manitoba, is provided for in arrangements concluded between federal and provincial governments and the railways. Some 45,000 families and 500,000 cattle are affected by the drought, continuing for its fourth season. The matter has been under advisement here for the past month.

Neil "Scotty" McPhee Is Laid to Rest

Following six weeks' illness in the Galt Hospital, Lethbridge, Neil McPhee, aged 31 years, passed away at 9 p.m. Saturday night, from stomach trouble, from which he had been suffering for some years.

He has no relatives in Canada but has a mother living in Scotland. He came to Raymond in 1920, and worked several years, and then went to the United States for a year or two returning again, and making his home here ever since. He was an exceptionally good man with sheep, and with the exception of a few days vacation each year, he has been with Meeks Bros. almost continually, and was in their employ when he was taken to the Hospital.

Mr. and Mrs. Geo. Terry have been almost like father and mother to Scotty in all the years he has been in Raymond, and whenever he was in town their home was home to him, where he was treated as one of

the family. He was a young man of very good habits, and his example and clean life was an object lesson to all.

The funeral services were held in the Second Ward Chapel Tuesday afternoon and concluding the busy season, was well attended by sorrowing and sympathetic friends. Speakers at the service were Wm. G. and James Meeks, Geo. Terry and Bishop Walker, who all spoke of the generous, loving, and clean pure life of deceased who had never smoked, nor drank intoxicants, despite the fact that all his life he had been thrown in a rough and careless element. A promise to his mother, when he left home at the age of fifteen to refrain from these things had been honored as long as he lived.

Interment was made in the local cemetery, with Christensen Bros. in charge, and a number of others followed the remains to their last resting place.

Mrs. Grace E. Hancock Passes Away

Interesting Nuptial Event in New Dayton

McRae — Hague

New Dayton, August 19th — The marriage of Marjorie, daughter of Mr. and Mrs. William Hague, Raymond, and Donald Hector McRae, also of Raymond, was solemnized at 10 o'clock Sunday morning at the Manse New Dayton, by the Rev. H. D. Riggs.

The bride entered unattended to the strains of the Wedding March, played by Mr. Jack Friedenburg of New Dayton. The bride made a lovely picture in her beautiful gown of leaf green tulle. With this she wore a white crepe hat and white accessories, her costume being made complete by a brown Sunner neck fur.

Following the ceremony, a dainty Buffet Lunch was served by the hostess. Mr. and Mrs. Jack Friedenburg were the only invited guests to witness the pleasant ceremony.

For travelling, the bride chose a very becoming suite of Biere wool with Brown hat and accessories.

The happy couple left by motor for Okotoks where they will visit the groom's mother before entraining for Vancouver, and other Coast cities.

On their return they will reside in Raymond where both are very popular, the bride having been telephone operator in the local office and the groom the always genial Cashier at the C. P. R. depot.—Contributed.

News Notes

Roy Stone was a week-end visitor to Waterton Park.

F. D. Merrill, Stirling was in Raymond Monday forenoon.

Buddy Anderson of Tyrell's Lake is spending a week's holiday with Jimmy May here.

Don't fail to see Paul Muni in "H NELLIE," at the Capitol Friday and Saturday.

Why not let us know of your visits and visitors. It all makes interesting reading to friends and relatives.

Word has been received that the Alberta Temple will be open for baptismal work on September 11th, and regular ordinance work will follow on the 12th and 13th.

A suggestion that Canadian day, of which there is a surplus, be admitted to nearby States free of duty to relieve the shortage there, is being considered by Dominion officials. This would be a good time to start free trade.

W. B. Nalder is very sick at his home, having suffered a stroke Tuesday morning when he was busy in the house lighting the fire. He is helpless at present, and it is with difficulty that he can speak. We, with his many friends wish for his speedy and complete recovery.

An interesting Rotary Luncheon and meeting was held Wednesday by the local Outpost when Rotarian W. O. Robinson, member of the Young Men's General Board of Salt Lake City spoke to the Club on "The Need of Education in Spending Leisure." Other visitors were Alex Snowdon, Lethbridge, and Messrs Campbell and Sterling of Calgary.

The death occurred in the St Michael's Hospital, Lethbridge, at 2:30 a.m. on Sunday of Mrs. Grace E. Hancock, wife of Joseph Hancock, and daughter of Mr. and Mrs. George Shields of Raymond, following years of suffering from stomach trouble and disorders of the kidneys. She had been in the hospital a little over a week.

Besides a host of relatives, she leaves her husband and a family of 5 girls, ranging from 9 to 18 years of age. Two children preceded her to the grave. She was a loving wife and mother, and radiated sunshine to all who came in contact with her, even during the pain and suffering she endured. The sympathy of the community goes out to the sorrowing relatives and family in their hour of bereavement.

FUNERAL SERVICES

Funeral services were held in the Second Ward Chapel Wednesday afternoon at 1 p.m. with Bishop Walker conducting and Chas. B. Strong in charge of the singing, very appropriate hymns being rendered.

The hall was filled with those who came to pay their respects to the deceased and there was a profusion of beautiful flowers, covering the casket and the rostrum completely.

The speakers were Pres. J. W. Evans, Bishop Thomas Curry of Diamond City, D. G. Selman and D. L. Galbraith, who all spoke of the lovely character of the deceased, and of her devotion and love for her family.

Special musical numbers were a Vocal Solo by Ira McBride, Vocal Duets by Mesdames L. D. King and J. H. Walker, and a Vocal Trio by Mesdames Winnie Strong, Muriel Terry and Miss Dorothy Strong.

A large cortege followed the remains to the cemetery where interment was made, with Christensen Bros. in charge.

A westerner you will thoroughly enjoy Tim McCoy in "SHOT-GUN PASS" at the Capitol Friday and Saturday.

Born to Mr. and Mrs. Byron Vance, Monday August 21st at the Hospital in Lethbridge, a baby boy. Mother and son are doing nicely and Byron has stood the ordeal exceptionally well.

Abiah Clark was away from his work at the Factory several days last week as a result of getting a piece of hot steel in his eye as he was bending a piece of heavy angle iron in the vice. He is improving alright now.

During the heavy wind and dust storm which we had last Friday night, two transients were killed west of Calgary when the wind tore the top off a box car in which they were riding, and threw them to the ground inflicting fatal injuries.

Marlin M. Allred, uncle of Milford Allred and relatives of the other Allreds here, returned to Utah Monday morning, after a prolonged visit here, and will spend the winter in Utah, before returning to his home in Prescott, Arizona. Thos. Hicken and his son Bennie, accompanied Mr. Allred on the trip south.

Card of Thanks

The family of Mrs. Eliza Witbeck wish to thank all those who assisted in any way during the illness and death of their Mother, and the many friends who so kindly sent flowers, and those who donated their cars for the service.

A CREDIT TO THE TOWN

During the summer months, the Town Hall grounds with the rows of fragrant and beautiful flowers have been a source of continual joy and satisfaction to all citizens of the Town, and the caretaker, C. Walker is to be commended for the interest he has taken in keeping the lawns and flower beds so beautiful.

Backed by the building itself, fronted with the Memorial, which with its repairs this spring, is a real beauty, the spacious lawns have been like a green carpet on the grounds, and the shrubs blossoming, the climbing vines and the various kinds of flowers have attracted lovers of the beautiful all summer long by their beauty and fragrance.

When we think back to the days before the Town Hall, to the little old one roomed building that served for the Town Office, no grounds, no walks, no lawns nor any beauty, nothing but a cow pasture where the Town Hall now stands, we appreciate the vision that the City Dads had when they decided to build. We remember too, the arguments the quibbling and questioning, the calamity howlers who were going to have the Town bankrupt if they undertook such a scheme. All these things come to mind as we reflect the circumstances surrounding the decision to build. We remember too, that after all the talk that had been spread in opposition to the move, that the vote was very light, and apparently, those who had been opposed were only talking. At any rate the hall was built, and today everyone appreciates it.

We visit other towns, who for some reason have no Town Hall and it seems to us, that there is a something lacking. There is a lack of stability in the spirit of the Town, and this spirit spreads, in cases we think to a sort of unconscious transitory feeling on the part of the citizens. In our town, the permanent structure, the imposing grounds, the peaceful surroundings lends an air of solidity to the town and district, and our building program is of the same solid and substantial nature. This at least is our opinion.

So, we say congratulations to the City Fathers who fostered and finished the Town Hall. To day, as an outgrowth, we have

CROP TESTING PLAN

A considerable number of small plots of wheat have been grown at the Station for the past three seasons to determine the purity of seed used by the average farmer in the district. Samples were obtained from elevator agents representing grain crops marketed by different farmers and a small plot was sown from each farmer's sample to determine the purity of it.

Just previous to harvesting a Field Day has been held each season at the Station to which elevator agents and the farmers who supplied the samples are invited. The plots were then carefully examined and the impurities contained in them were demonstrated. Mr. L. H. Newman, the Dominion Cereals Inspector, has been in attendance on these occasions and has demonstrated the characteristics of the different common varieties of wheat to enable farmers to examine their own wheat fields and determine their purity.

This season a few other elevator agents joined in with the Searle Grain Company in this Crop Testing Plan and samples were supplied by approximately 20 farmers from each of the following points: Walsh, Brocket, Barons, Burdett, Bow Island, Glenwoodville, Pearce, Barnwell and Turin. In addition to these, 83 samples were obtained from the Ellison Milling Company from wheat shipments delivered to them at points in the vicinity of Lethbridge, making a total of 263 samples tested.

These plots were all examined and graded from the standpoint of purity into three classes, namely: A, B and C. In "A" class were placed all plots which were found sufficiently pure to warrant the use of this seed for future use.

a show garden for visitors, we have a respectable house for all of our civic offices and officials we have a library that is continually growing in popularity and we have a room where public meetings and public bodies can meet for the transaction of business and exchange of ideas. The Town is not bankrupt and we are just as far ahead as though the Town Hall had never been built, and everyone is and should be justly proud of our Civic home.

ure use. Samples grading "B" contained several impurities but represented seed of a high enough standard to continue for a few years longer. "C" samples represented crops sufficiently low in purity to necessitate an exchange for better seed. Of the 263 plots examined, 20% graded "A", 30% graded "B" and 50% graded "C". This shows a decided need for improvement of the quality of seed wheat used in the district. Farmers whose samples graded "C" are advised to procure better seed for next year. In many cases this can be done at no expense by exchanging grain with other farmers who are delivering to the same elevator wheat which graded "A". We understand that the agents who obtained the samples last spring are willing to assist farmers in making these exchanges.

This topic will probably be dealt with further during the months and a larger number of farmers adjacent to Lethbridge may be encouraged to forward samples to us for testing next year, as it provides a splendid means for growers to determine the purity of the seed they are using.

Major H. G. L. Strange, Chief of the Research Department of the Searle Grain Company, Winnipeg, was largely responsible for putting this crop testing plan into operation. Those who have observed it in past seasons are of the opinion that it should help greatly in improving the general quality of Canada's wheat crop.

DID YOU EVER STOP TO THINK?

By Edson R. Waite, Shawnee
H. B. MUIR, GENERAL
MANAGER OF THE KINGSTON (ONTARIO) WHIG-STANDARD, SAYS:

"Did you ever stop to think what would happen if the newspapers suddenly stopped publishing? Gossip and rumor would run rampant. No clearing of the air every day with the facts and the truth. Just when the newspapers have made it possible for us all to get acquainted with the people of the world and renew contact every day, we would find ourselves cut off.

"Fear grows in the dark.

Alberta News Bulletin

Issued by the Publicity Commissioner, Government of Alberta, Edmonton, August 18, 1934.

MORE MONEY FOR

HIGHWAYS

Completion of the Edmonton Jasper Park Highway as an all-weather route, and the completion of the necessary reconstruction on the upper end of the Calgary-Banff Park highway, is largely assured as a result of arrangements made with the federal government by Hon. Geo. Headley for a vote totaling \$125,000 marked for the Jasper road and \$150,000 marked for the trans-Canada highway in Alberta. The latter provided for work both east and west of Calgary. In addition, the federal government has given a vote of \$100,000 monthly to Alberta

for direct relief which is somewhat larger than had been expected.

Some of the work on the two park highways will be done this season, but some of the construction work necessary, chiefly that on the Jasper road, will not be possible till next season.

BROOM CORN AT TABER

Satisfactory production of broom corn for use in the manufacture of brooms has been established on the irrigated section surrounding Taber, in southern Alberta this season. Some 400 acres have been grown under contract with a firm at Regina, which will utilize the material. The crop was recently inspected by officials of the concern and found to be in excellent shape. Some of the crop stood as high as eight feet.

FARMERS ALIVE TO USE OF GOOD SEED

There never was a time when farmers were more alive to the desirability of the use of good seed than now, stated W. T. G. Weiner, secretary of the Canadian Seed Growers' Association,

News Notes

700 dead, 60,000 homeless was the toll of a terrible tornado in Manchukuo province Sunday. Martial law has been declared.

Miss Edna Olson, Fritz Gehmlich and Moses Fromm were Hill Sping visitors Sunday, where they attended the wedding dinner of Edna's sister, who was married last week.

Seven people in the Northampton, Mass., State Hospital are dead as a result of an epidemic of dysentery that swept that institution. No statement as to cause has been made.

on a recent visit to Alberta. Last year the association was sold out of seed by the middle of March, said Mr. Weiner.

LICENSE MILK DEALERS

Licensing of all milk and cream dealers serving the cities of Calgary and Edmonton has been put into effect by the provincial public utilities board. The action aims at the closer control of supply and the more definite control of price cutting and rebating.

ALBERTA'S UNEMPLOYMENT

Total unemployed registered at provincial labor bureau was 8,595 in the week of August 11, which is somewhat reduced from former figures.

GRAVELLING WORK PROCEEDING

Under contract already awarded some 150 miles or more of gravelling and re-graveling of existing highways have been completed according to a progress report issued by the provincial public works department. This work is proceeding on some 27 sections of main highways in different sections of the province.

HUGE YIELD

A yield of 553 bushels of barley from 4.9 acres, an average of 72 bushels per acre, was reported from the Smith farms, just east of Lethbridge. The crop was grown from four bushels of Elite strain of Trebi barley and weighed 55 pounds a bushel.

WOOL SCOURING PLANT

Establishment of a wool scouring plant, valued at \$50,000, capable of handling the bulk of Alberta's annual wool clip, is now assured for the province, according to authoritative information available in Edmonton. Just where the plant will be located is not yet decided. Four locations are being considered by the eastern firm handling the proposition, namely, Edmonton, Calgary, Lethbridge, and Medicine Hat. One of the main considerations is proper railway facilities for both inward and outward shipments. The annual wool clip of the province runs between 3,500,000 and 4,000,000 lbs. The largest proportion is produced in Southern Alberta, but there are a number of important producing areas in the central and northern parts of the province. It is stated that the financial arrangements for the plant have now been completed, and that installation can be commenced as soon as a definite location is arranged. The proposition is being closely studied by the provincial trade commissioner's office at Edmonton.

ACREAGE IN GRAINS 1931

Tentative estimates of acreages in various grain crops in Alberta have been issued this week in company with those of other provinces, by the Dominion bureau of statistics. The figures for Alberta are as follows: Wheat 7,501,000 acres compared with 7,989,000 last year; oats 2,870,000 acres; barley 749,000; rye 235,000 and flax 18,100.

Bennie Hicken has been spending a week or so with his folks here, and expects to return early next week to Utah, where he will prepare for another year's work in the University.

The canning of corn is in progress at the new canning factory in Taber, and this is an industry which should prove a real boon to the irrigation farmers in this district. Its progress will be watched with interest.

The fifteen Ton Beet Club Tour will be held Saturday and will include Taber, Barnwell and Coaldale districts, finishing at the Experimental Farm, Lethbridge where experimental plots will be visited.

Mr. and Mrs. Las. Cooper, Mr. and Mrs. Greene, and Mrs. Sarah Washburn, left on Wednesday on their return to Ellensburg, Washington, after a delightful ten days visit here, during which time they have had a wonderful time.

Machione gun bandits in Brooklyn made a haul of \$427,000 from an armored truck on Tuesday and made away with the loot in two cars. Well-organized and armed to the teeth, they put the guards and driver on the spot and merely helped themselves.

J. U. Alfred is in the Galt Hospital, Lethbridge with his leg in a cast as a result of a break in the large bone between the ankle and knee resulting from a fall from a load of hay. He became overbalanced and grasped the side of the rack which let him down behind the horses, and both wheels of the wagon passed over his leg.

The witness stood in the box. The clerk asked him, "How do you spell your name?" He replied: "O double T, I double U, E double L, double U, double O—."

"Hold on there," said the clerk; start in again." "O double T, I double U, E double L, double U, double O—"

"Stop!" cried the clerk. "Your worship, I think this man should be dealt with for contempt of court."

"My man," said the judge, "what is your name?" The witness replied: Ottiwell Wood, sir: O double T, I double U, E double L, double U, double O, D."

50 YEARS A MARTYR TO CONSTIPATION

But Kellogg's ALL-BRAN Brought Welcome Relief

Read this splendid letter from Mrs. Haynes:

"For 50 years I have been a martyr to constipation. I have tried every remedy under the sun.

"One day I read an account of some one who had been relieved by ALL-BRAN, but I thought 'What was the use of me trying anything more when all else had failed?'

"A while after, I read it again. That time I thought I would try it, it would do no harm anyway.

"I began with a small dish of your ALL-BRAN for breakfast, and wonderful to say, I never need to take any physic at all now. How I wish other poor sufferers from constipation could be persuaded to try it."—Mrs. Sarah Haynes (address furnished upon request).

Tests show Kellogg's ALL-BRAN provides "bulk" and vitamin B to aid regular habits. Also iron for the blood.

This "bulk" in ALL-BRAN is much like that in leafy vegetables. It's so much safer than taking patent medicines! Two tablespoonsful of ALL-BRAN daily are usually sufficient. Secure cases, with each meal. It will relieve this way, see your doctor.

Get this delicious ready-to-eat cereal from your grocer. In the Kellogg's package. Made by Kellogg in London, Ontario.

MELBA

Cleansing Cream

SOFTENS and SOOTHES as it CLEANS

55¢

Even the most delicately sensitive skin welcomes this gentle, delightful cream. Yet it penetrates to the depths of each pore, removing dust and hardened oils, which can be removed no other way. To use Melba Cleansing Cream each night and morning is the first rule for a skin of satin-smooth beauty.

The FIRESIDE PHILOSOPHER

By ALFRED BIGGS

First control yourself.

Don't argue with a fool.

Nobody is indispensable.

Try to grow old without growing up.

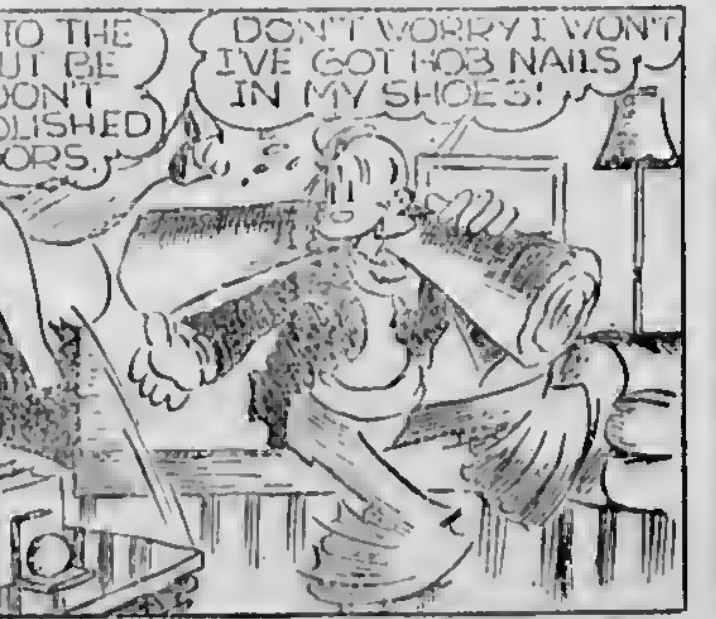

To find yourself you must lose the world.

We can build skyscrapers but we can't cooperate.

Ignorance always makes a gentleman for wealth.

Dwell in the past and you will find a poor future.

Women's Institute
Fair Prize List

In the Conference and Fair of the Women's Institute of the Warner Constituency held last week, two very interesting sessions were held, and the outstanding speeches at the meeting were delivered by Mrs. Campbell, who brought greetings from the Provincial organization, and gave an interesting talk on the Peace River country, which she had recently visited. Mrs. Thompson of Coaldale, the District Director gave a very inspiring address "A Challenge to Women," dealing with Education and Crime and pointing out the important place of women in the history of the world. Mrs. Kirkham, Constituency Convenor, also gave an interesting address to the assembly, and Mrs. C. D. Compton gave an interesting talk on the "History of Sugar."

Local musicians rendered several splendid musical numbers during the sessions and it was decided to hold the Conference and Fair next year at Warner. Following is the prize winners in the Flower Show and Fair.

Flowers were the outstanding exhibits at the fair, with local entries outnumbering those from outside districts. There were over 160 entries and prizes were awarded first, second and third in the order given:

THE PROPER CARE OF
YOUR AUTOMOBILE

Closed Car Tops

MOST automobile owners appreciate that it isn't the original cost, it's the upkeep that makes motoring expensive. Yet, few realize that they can avoid many of the major expenses of an automobile with a little care.

It has been told previously how the finish of the car may be preserved indefinitely by regular cleaning and waxing. This is true also of the closed car top. If care is taken of the top when it is new its life may be prolonged indefinitely at little expense.

Most closed car tops consist of fabric which is coated with a rubber composition and finished with a black baked enamel. Exposure to the weather causes the varnish finish of the top to slowly disintegrate or chalk, which is first

indicated by the disappearance of the gloss and the appearance of tiny check marks. If the top is neglected when this condition develops, the checks may enlarge into cracks, which may eventually penetrate through to the fabric and result in leaks.

As most car frames are made of kiln dried wood which rots quickly when exposed to moisture, a leaky top may cause considerable damage. By the time the motorist realizes that the top needs patching, he may find it necessary to have part of the framework rebuilt, which is a long and expensive job.

Frequent inspection of the top is essential, and when weathering starts it should be re-finished with a coating of properly formulated top dressing.

Next: "Refinishing the Top."

The Dream That Built
A Mighty Industry

How One Man's Vision Gave The World
Its Greatest Breakfast Cereal

Twenty-eight years ago, W. K. Kellogg, whose name is now a household word, originated Corn Flakes—the greatest discovery in manufactured breakfast foods the world has ever known. Today, more than twelve million people have breakfasted on Kellogg's Corn Flakes. Thus one man's dream became a reality and Kellogg's Corn Flakes are enjoyed in practically every civilized country by people of almost every race and tongue.

What is the secret of this world-wide popularity? It is because the Kellogg institution has always adhered to the ideals of its founder. Not only has it aimed to give the public the finest food product that human intelligence, research, and up-to-date equipment can possibly extract from the choicest grain, but to insist on business methods based on honesty and sincerity. Quality has always been the first essential.

Kellogg's Corn Flakes have continued to lead the world and to think of Corn Flakes is to think of Kellogg's. So fine is their quality, so indescribably delicious their crisp, tasty flavour, that demand is ever increasing. Today it takes the product of 675 acres of corn to supply the daily needs of the world-wide Kellogg family.

The splendid Kellogg plant in London, Ontario, is one of three large, modern Kellogg factories. There happy Canadian people work under pleasant and hygienic surroundings and under ideal conditions to supply these tasty, healthful Corn Flakes to Canada, other parts of the Empire and European countries.
